

Initial Destinations of CRT / CRT Glass Shipments by California CEW Recyclers 2013

Initial Destination	Approximate Pounds	Notes
Closed Loop Refining and Recovery (CLRR)	16,000,000	Phoenix, AZ. Reports to be developing lead extraction technology and markets for other derived glasses; attempting to site in Ohio. About 100 million pounds of CA CRT sent to CLRR in AZ since 2010. Unclear what portion remains on-site.
Doe Run	560,000	Missouri. Lone major lead smelter in US.
Dow Management	1,600,000	Yuma, AZ. Received approximately 10 million pounds of CA CRT beginning 2011, before abandoning site in May 2013.
e-Recycling of CA (Irvine)	19,700,000	Irvine, CA. Affiliated with CEW recycler. Processes CRTs for self and other recyclers and reportedly ships to Videocon.
GLS Group	3,090,000	Ontario, CA. Affiliated with CEW recycler, Cal Micro. Has reportedly subsequently shipped to Taiwan and Videocon.
PC Recycle	770,000	Newberry Park, CA. Affiliated with CEW recycler. Processes CRTs for self and other CEW recyclers. Reportedly subsequently ships to Videocon.
Regenesys Glass	1,880,000	Stockton, CA. Affiliated with CEW recycler, ESC Refining. Various reported subsequent dispositions. Has experimented with applications for processed glass.
TDM	58,400,000	Mexicali, MX. Reportedly subsequently ships processed CRT glass to Videocon.
Videocon	4,900,000	India. May receive at two locations. Reportedly manufactures new CRTs and CRT devices. Conflicting information on capacity and longevity.
Total	~107,000,000	

**Report generated April 15, 2015. Information derived from CRT shipment documents contained in covered electronic waste payment claims.*

Initial Destinations of CRT / CRT Glass Shipments by CEW Recyclers 2014

Initial Destination	Approximate Pounds	Notes
Closed Loop Refining and Recovery (CLRR)	14,600,000	Phoenix, AZ. Reports to be developing lead extraction technology and markets for other derived glasses; attempting to site in Ohio. About 100 million pounds of CA CRT sent to CLRR in AZ since 2010. Unclear what portion remains on-site.
e-Recycling of CA (Irvine)	18,700,000	Irvine, CA. Affiliated with CEW recycler. Processes CRTs for self and other recyclers and reportedly ships to Videocon.
Glencore Canada Corp	130,000	New Brunswick, Canada. Zinc and lead smelter.
GLS Group	10,700,000	Ontario, CA. Affiliated with CEW recycler, Cal Micro. Has reportedly subsequently shipped to Taiwan and Videocon.
PC Recycle	990,000	Newberry Park, CA. Affiliated with CEW recycler. Processes CRTs for self and other CEW recyclers. Reportedly subsequently ships to Videocon.
Regenesys Glass	80,000	Stockton, CA. Affiliated with CEW recycler, ESC Refining. Various reported subsequent dispositions. Has experimented with applications for processed glass.
TDM	41,540,000	Mexicali, MX. Reportedly subsequently ships processed CRT glass to Videocon.
Videocon	16,100,000	India. May receive at two locations. Reportedly manufactures new CRTs and CRT devices. Conflicting information on capacity and longevity.
Total	~103,000,000	

**Report generated April 15, 2015. Information derived from CRT shipment documents contained in covered electronic waste payment claims.*
