Mr. Jason Boetzer, Director  
Environmental Health Department  
891 Mountain Ranch Road  
San Andreas, CA 95249

Dear Mr. Boetzer,

**Subject: Report on Emergency Waiver for the Acceptance of Soils from the Butte Fire**

Site: Rock Creek Solid Waste Facility, 12021 Hunt Road, Calaveras County 95252  
Facility # 05-AA-0025

Dear Jason,

On February 22, 2016, the Rock Creek Landfill received an emergency waiver of standards for daily tonnage limits to receive non-hazardous soils from the Butte Fire debris removal efforts from your Agency. Per Title 14, Section 17210.5 the Solid Waste operator is required to provide a 90-day report on the waiver. This waiver was requested by the County Integrated Waste Management Division in support of the CalRecycle Debris Removal Program. Please consider:

1. During the first 90-days of the waiver, the Rock Creek facility received 616.12 tons of non-hazardous soils from the Butte Fire debris removal program which were placed into the landfill.
2. All soils originated on private property within the perimeter of the Butte Fire, in Calaveras County.
3. During the effective period of the waiver, between February 29, 2016 and March 16, 2016 the Rock Creek landfill received soils on 7 days, which on these days represented approximately 88 tons per day of increased volume of fire related debris (non-hazardous soils). On March 4, 2016, the peak day, the facility received approximately 321 tons of non-hazardous soils from the Butte Fire area.
4. The above reference disaster debris was deposited directly to the active landfill at the Rock Creek facility and incorporated into fill-and-cover operations.
5. As the anticipated volume of non-hazardous soils Butte fire soils received were significantly less than anticipated, stockpile and stabilization operations were not used as described in the Waiver.

A "Materials Analysis Report" for this material is attached to this report for reference. As the Butte Fire Debris Removal program has treated all but a few parcels, there is no need to extend the emergency waiver beyond the 120-day termination on June 21, 2016. The facility will not receive Butte fire debris after expiration of the waiver.
