

CALIFORNIA INTEGRATED WASTE MANAGEMENT BOARD8800 Cal Center Drive
Sacramento, California 95826

May 19, 1993

**NOTICE OF PUBLIC WORKSHOP
ON OPTIONS FOR FINANCING
RECYCLING-BASED MANUFACTURERS**

The California Integrated Waste Management Board Market Development Committee will be holding a workshop soliciting public comment on options for financing recycling-based manufacturers in an effort to stimulate secondary materials markets in California. Viable markets for secondary materials diverted from the waste stream are critical to achieving the goal of 25% reduction by 1995 and 50% by 2000. The Board is seeking comments and suggestions from businesses, industries, local governments, public interest groups, environmental organizations, and the general public on financing options for recycling-based manufacturers.

The workshop will provide a public forum to focus on existing and possible financing models, including SB 1021, authored by Senator Thompson, that the Board could implement or support to assist recycling-based manufacturers. A panel of financing experts will be participating in the discussion. Mr. Paul Relis, chair of the Market Development Committee, will serve as the moderator. Panel members include:

Ms. Ann Ludwig, Recycling Market Development Zone
Administrator, Oakland/Berkeley
Mr. Dean Miscynski, California Research Bureau
Mr. Richard Morrison, Bank of America
Ms. Jeanne Wirka, Materials for the Future Foundation
Mr. James Young, Department of Commerce

The workshop is scheduled from 1:00 p.m. to 4:00 p.m., following the Market Development Committee meeting at the:

California Integrated Waste Management Board
8800 Cal Center Drive
Board Room, First Floor
Sacramento, California 95826
(Wheelchair Accessible)

The public is invited to attend this workshop, and will have an opportunity to comment. We look forward to your attendance and participation.

If you wish to receive a draft report prior to the workshop, please contact Margie Zapata (916) 255-2406 to request "COMPARING OPTIONS FOR FINANCING RECYCLING-BASED MANUFACTURERS; A DISCUSSION PAPER".
