BEFORE THE  
DEPARTMENT OF RESOURCES RECYCLING AND RECOVERY

4 IN THE MATTER OF: ) Cleanup and Abatement  
5 Mancini-Mills, Inc., PROPERTY OWNER ) Order: No. 2012-011022-CAO  
6 AND )  
7 Bay Area Tire Recycling, Inc., ) Public Resources Code section 42845  
8 OPERATOR )  
9 TPID NO: 1703928 )  
10 ASSESSOR PARCEL NO: 439-4-24 )

11  
12 TO: Mancini-Mills, Inc., Property Owner and Bay Area Tire Recycling, Inc., Operator:

13 **PLEASE TAKE NOTICE THAT:**

14 You are the Operator of a Waste Tire Facility (WTF) known as Bay Area Tire Recycling,  
15 Inc. or Owner of property located at 2033 American Avenue, Hayward, CA 94545, Assessor  
16 Parcel Number 439-4-24, (this site), upon which Bay Area Tire Recycling, Inc. is located, as  
17 those terms are defined in Public Resources Code (PRC) sections 42804, 42805 and 42808  
18 (Property Profile for this site is attached hereto and incorporated herein by reference as  
19 Appendix A-1);

20 The California Integrated Waste Management Board (CIWMB) which is now the  
21 Department of Resources Recycling and Recovery (CalRecycle) has authority to act as the  
22 enforcement agency for Waste Tire Facilities (WTF), pursuant to PRC section 42800 et seq.,  
23 and is the enforcement agency for this waste tire site. CalRecycle succeeded to CIWMB's  
24 authority on January 1, 2010, pursuant to PRC section 40401;

25 This site meets the definition of a minor WTF as that term is defined by PRC section  
26 42808(c);

27 You are currently in violation of California Waste Tire Laws as prescribed by PRC  
28 section 42800 et seq.;

1 The Alameda County Grantee inspected this site on June 13, 2012, and determined that  
2 500 or more waste tires were being stored on site;

3 The Alameda County Grantee issued a Notice of Violation to you as the Property  
4 Owner/Operator on June 13, 2012, as documented in Inspection Report I1-1225633, which is  
5 attached hereto and incorporated herein by reference as Appendix A-2, requiring the tires to  
6 be removed by July 13, 2012;

7 The Alameda County Grantee inspected this site on July 19, 2012, and determined that  
8 the site was In Compliance with less than 500 waste tires on site;

9 The Alameda County Grantee and CalRecycle inspected this site on October 2, 2012,  
10 and determined that 500 or more waste tires were being stored on site;

11 The Alameda County Grantee and CalRecycle issued a Notice of Violation to you as the  
12 Property Owner/Operator on October 2, 2012, as documented in Inspection Report I1-  
13 1129309, which is attached hereto and incorporated by reference as Appendix A-2, requiring  
14 the tires to be removed by October 31, 2012;

15 The Alameda County Grantee inspected this site on October 26, 2012, and determined  
16 that 500 or more waste tires were being stored on site; in fact, more waste tires were being  
17 stored onsite than during the previous inspection;

18 The Alameda County Grantee issued a Notice of Violation to you as the Property  
19 Owner/Operator on October 26, 2012, as documented in Inspection Report I1-1187835, which  
20 is attached hereto and incorporated by reference as Appendix A-2, requiring the tires to be  
21 removed by October 31, 2012;

22 The Alameda County Grantee inspected this site on November 14, 2012, and  
23 determined that the site was In Compliance with less than 500 waste tires on site; and

24 The Alameda County Grantee and CalRecycle inspected this site on November 29,  
25 2012, and determined that 500 or more waste tires were being stored on site;

26 The Alameda County Grantee referred to site to CalRecycle for enforcement on  
27 November 29, 2012, as documented in Inspection Report I1-1187849, which is attached  
28 hereto and incorporated by reference as Appendix A-2;

1 To date, you have not acquired a WTF permit for this site;

2 You are in violation of PRC section 42834 for accepting and storing 500 or more waste  
3 tires on this site without obtaining a "Minor Waste Tire Facility Permit";

4 You are in violation of Title 14 of the California Code of Regulations (CCR), section  
5 18420(a), which requires every Operator of a major or minor WTF that stores, stockpiles,  
6 accumulates or discards waste tires to acquire a Permit;

7 Since this site meets the definition of a "Waste Tire Facility" as set out in PRC section  
8 42808, this site is also subject to the same safety and security measures to which a legally  
9 permitted facility is subject. These requirements are set forth in Title 14 of the CCR, Division  
10 7, Chapter 3, Article 5.5, attached hereto and incorporated herein by reference as "Appendix  
11 B";

12 CalRecycle has the authority to order WTF Operators who are in violation of the  
13 aforementioned law to clean up waste tire piles, abate the effects thereof, or otherwise remedy  
14 a case of threatened pollution or nuisance, pursuant to PRC section 42845(a);

15 Where there is no identified "Operator", the Operator shall mean the Owner, pursuant to  
16 Title 14 of the CCR, section 17225.755;

17 CalRecycle has the authority to seek administrative penalties of not less than five  
18 hundred dollars (\$500) and up to ten thousand dollars (\$10,000) for each violation of a  
19 separate provision or, for continuing violations, for each day that the violation continues,  
20 against any person who violates any provision of this Chapter, or any permit, rule, regulation,  
21 standard or requirement issued or adopted pursuant to this Chapter as provided in PRC  
22 sections 42850 and 42850.1.

23 **THEREFORE, PURSUANT TO PRC SECTION 42845, YOU ARE ORDERED TO:**

24 Reduce and maintain the number of waste tires onsite to 499 or less, in accordance with the  
25 following:

- 26 1. Remove all waste tires in excess of 499 from the premises within 15 days from  
27 the date of service of this Cleanup and Abatement Order (CAO), in accordance  
28 with the following waste tire removal schedule:

1 a. Waste Tire Removal Schedule

- 2 i. Waste tires shall be removed from the premises. CalRecycle must  
3 approve the destinations of the tires to ensure that a registered waste  
4 tire hauler legally transports them to an approved facility.
- 5 ii. All waste tires (whole and/or passenger tire equivalents, pursuant to  
6 Title 14 of the CCR, section 17225.770) shall be removed by a  
7 registered waste tire hauler, as prescribed by PRC section 42950 et  
8 seq., within 15 days from the date of service of this CAO. A completed  
9 Comprehensive Trip Log (CTL), CalRecycle 203, manifest form must  
10 accompany each load and a copy of each completed CTL form must  
11 be submitted to CalRecycle within 30 days from the date of service of  
12 this CAO. Failure to comply with this provision may result in penalties,  
13 pursuant to PRC sections 42961.5 and 42962.

- 14 2. At no time may you accept additional waste tires at this site unless there are less  
15 than 499 onsite and the acceptance of additional waste tires will not result in  
16 more than 499 waste tires being onsite.

17  
18 **PLEASE TAKE FURTHER NOTICE THAT PURSUANT TO PRC SECTIONS 42845,**  
19 **42850 and 42850.1:**

20 If you do not complete or comply with the above actions by the specified dates,  
21 CalRecycle may petition the superior court for injunctive relief to enforce this CAO and for civil  
22 penalties in the amount of not less than \$500 and up to \$10,000 for each violation of a  
23 separate provision or, for continuing violations, for each day the violation continues, pursuant  
24 to PRC sections 42845, 42850 and 42850.1. Civil penalties may be imposed in a civil action or  
25 may be imposed administratively, pursuant to PRC section 42850 et seq.;

26 If a decision is made in favor of CalRecycle in an administrative or civil hearing in  
27 accordance with PRC section 42850 et seq., CalRecycle or its contractors may subsequently  
28

1 enter your property for the purposes of abatement or remediation without your consent,  
2 pursuant to PRC section 42846.5;

3 You have ten (10) days from the date of service of this order to file a petition with  
4 CalRecycle raising any substantial issues that are appropriate for review. CalRecycle will  
5 review the petition and respond within thirty (30) days from the date of receipt by CalRecycle.  
6 Regardless of whether you file a petition, you must complete the above actions ordered  
7 pursuant to PRC section 42845;

8 If you fail to remove all of the waste tires by the required date, CalRecycle is authorized  
9 to expend available funds to perform any necessary cleanup, abatement or remedial work, as  
10 set forth in PRC section 42845 et seq.;

11 If CalRecycle expends funds to perform any cleanup, abatement or remedial work,  
12 CalRecycle may seek cost reimbursement from you and any other responsible party acting as  
13 the Operator or Property Owner, pursuant to PRC section 42847;

14 Moreover, funds so expended by CalRecycle constitute a lien upon the real property  
15 owned by any responsible party that is subject to the remedial action, pursuant to PRC section  
16 42847.5.

17 Nothing in this CAO shall constitute or be construed as a satisfaction or release from  
18 liability for any conditions or claims arising as a result of yours or any other responsible party's  
19 past, current or future operations acting as the Operator or Property Owner. Notwithstanding  
20 compliance with the terms of this CAO, you may be required to take further actions as are  
21 necessary to protect public health or welfare or the environment.

22 CalRecycle shall not be liable for injuries or damages to persons or property resulting  
23 from acts or omissions by you or any other responsible party acting as the Operator or  
24 Property Owner, or related parties in carrying out activities pursuant to this CAO; nor shall  
25 CalRecycle be held as a party to any contract entered into by you or any other responsible  
26 party acting as Operator or Property Owner or their agent(s) in carrying out activities pursuant  
27 to this CAO.

1 This CAO does not relieve you or any other responsible party acting as the Operator or  
2 Property Owner from complying with all other local, state and federal requirements.

3 This CAO may only be amended in writing by an authorized CalRecycle representative.

4 If you have any questions about this CAO, you may contact Mary LeClaire of my staff at  
5 (916) 341-6433.

## Comments

FACILITY operators state that they have applied for a Minor waste tire permit from CalRecycle. However, approximately 1,720 WTs were counted during this Routine Inspection, which is in violation of their current permitted status that allows no more than 499 waste tires.

Comments

Cal Recycle's "Rights and Responsibilities Related to your violation" document was left at the site with the operator.

Additionally, if you continue to violate California's waste tire storage laws, including failing to maintain a waste tire count of 499 or less (1500 for tire dealers), you run the risk of not being granted a permit.

					Facility Compliance with NFPA 231D-1989

#### Comments

FACILITY OPERATORS HAVE APPLIED FOR A MINOR WASTE TIRE PERMIT FROM CAL RECYCLE. APPROX 1,118 WTS WERE COUNTED AT THE FACILITY. IF YOU CONTINUE TO VIOLATE CALIFORNIA'S WASTE TIRE STORAGE LAWS, INCLUDING FAILING TO MAINTAIN A WASTE TIRE COUNT OF 499 OR LESS (1500 FOR TIRE DEALERS) YOU RUN THE RISK OF NOT BEING GRANTED A PERMIT.

and November 2012 were stored onsite; Mr. Yu did not know where CTLs for other months were stored. Operator was advised that CTLs must be maintained onsite for 3 years.

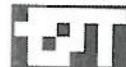

Facility storing 2,649 waste tires at the time of inspection. With the exception of baled tires, all waste tires (WTs) were counted individually. Bales were counted at 60 tires each as per previous inspections. Breakdown of WTs is as follows:

- 360 WTs (6 bales x 60 tires each bale) located near the roll-up door
- 1220 WTs (20 bales x 60 tires/bale + approximately 20 loose WTs) in the storage container located in front of the roll up door. Using a measuring wheel, the dimensions of the container were determined to be 40 feet long x 8 ft wide x 10 feet in height. Each WT bale measured  $\approx$  6ft wide x 4 feet depth x 4 ft height. Based on the fact that WT bales were stacked on top of one another, and taking into account the dimensions of each bale, approximately 20 WTs bales would fit in the storage container.
- 567 WTs barrel stacked near the northeast side of the warehouse.
- 90 WTs barrel stacked and some loose near the roll up door (southeast corner of warehouse).
- 412 WTs off loaded by Big Sky

Mr. Yu stated that the barrel stacked tires near the northeast side of the warehouse were used tires available for resale. Ms. Leclaire advised Mr. Yu that in order for the 567 tires to be counted as used tires, the tires would need to be stored in accordance w/ PRC section

42806.5 and the facility would only qualify as a used tire dealer if its primary purpose is to sell used tires for profit. This is in accordance with section 17225.820 of title 14 of California code of Regulations. A copy of the PRC 42806.5 was provided to Mr. Yu. Note 1: The 567 WTs were not stored by size nor stored in rows. Note 2: As of Oct 12, 2012 load date in WTMS, there are no CTLs showing a pickup of tires which would indicate a used tire sale.

Upon entering the facility, we observed Big Sky (TPID 1463691), License Plate 7X94050) unloading waste tires. Ms. LeClaire individually counted 412 waste tires as tires were off-loaded. Ms. LeClaire asked the driver, Donald Tademy, if he was aware that Bay Area Tire Recycling was an unpermitted facility. Mr. Tademy stated his supervisor, Jeff Rose, decides on the delivery location to unload the waste tires.

Ms. LeClaire asked Mr. Yu to provide the name of the company who transported the container from the facility to the Port of Oakland. Mr. Yu stated that United Bridge Trucking Corp. hauls all containers to the port. Since there were no CTLs in WTMS showing a pickup from the facility, Mr. Yu was asked to provide copies of any United Bridge Trucking Corp's invoices. Mr Yu provided 4 invoices.

During the inspection, we observed a truck preparing to remove the container that was full of baled waste tires. Mr. Khatri and Ms. LeClaire approached the driver of the truck (license plate 9EA2764). There was no decal on the truck's windshield indicating a registered waste tire hauler, and the truck had a door sign indicating that the truck was leased to Reliable Express Transportation, Inc. The driver, Mr. Michael Gao, stated that he was the owner/operator.

Mr. Gao stated that he called United Bridge Trucking for a return load to the port and was told to pick up a container at Bay Area Tire Recycling. Ms. LeClare advised Mr. Gao that the container was full of waste tires; Mr. Gao stated that he is not supposed to transport waste tires. It was pointed out to Mr. Gao that the facilities door indicates that the business is a tire recycling company. Mr. Gao claimed that it was the first time he had been to the facility. Mr. Gao provided copies of blank receipts for Reliable Express Transportation and United Bridge Trucking, but did not have any CTL forms in his truck. Mr. Gao left the facility without the container.

PLEASE NOTE, IF YOU CONTINUE TO VIOLATE CALIFORNIA'S WASTE TIRE STORAGE LAWS, INCLUDING FAILURE TO MAINTAIN A WASTE TIRE COUNT OF 499 OR LESS, YOU RUN THE RISK OF NOT BEING GRANTED A PERMIT.

Issued on Behalf of the  
California Department of Resources Recycling and Recovery  
State of California

## **RIGHTS AND RESPONSIBILITIES**

### **Related to your NOTICE OF VIOLATION**

---

You have received a Notice of Violation (NOV). The attached Waste Tire Survey & Inspection Report (Inspection Report) constitutes notice to you that one or more violations of the Public Resources Code (PRC) and/or Title 14, California Code of Regulations (14 CCR) have occurred at a waste tire facility that you own or operate, or you have violated used and waste tire hauler laws. The violations are documented in the attached Inspection Report. As the owner or operator of the waste tire site, vehicle hauling used or waste tires, or individual or entity otherwise responsible for generating, hauling, storing, or receiving waste tires, you are responsible for complying with the Used and Waste Tire Hauling and Manifesting Requirements as well as the Waste Tire Storage and Disposal Standards.

When violations are discovered, the inspector may assign a Compliance Deadline Date (CDD), require immediate compliance, or refer to the Department of Resources Recycling and Recovery (CalRecycle) (*formerly CIWMB*). (See the Enforcement Status box on page one of the Inspection Report.) The Compliance Deadline Date (CDD) is the date an inspector will conduct a re-inspection to verify compliance with regulations. Enforcement action may be taken by the District Attorney, County Counsel or CalRecycle. Enforcement action may be taken for any violation against the owner and/or operator of a facility or hauler. Penalties increase in cases involving repetitive or continuing violations, past violations that are not corrected, or violations that pose a potential threat to public health, safety, and the environment.

CalRecycle may take enforcement action(s) against you including, but not limited to: (1) issuing Enforcement Orders pursuant to Public Resources Code (PRC) section 42845, (2) filing complaints seeking civil or administrative penalties up to \$25,000 for each violation per day [PRC sections 42962 and 42850], (3) referring the case to the Attorney General or District Attorney for criminal action, and/or (4) seeking denial, suspension, or revocation of Used or Waste Tire Hauler Registrations and/or Waste Tire Facility Permits pursuant to PRC sections 42841, 42843, 42960, 42961.

Issued on Behalf of the  
California Department of Resources Recycling and Recovery  
State of California

**RIGHTS AND RESPONSIBILITIES**  
**Related to your NOTICE OF VIOLATION**

Be advised that the majority of the waste tire storage and waste tire hauler laws are strict liability laws which means that the person violating them may be liable without regard to the person's intent or negligence.

**Waste Tire Hauling and Manifesting Information:** Anyone transporting 10 or more waste or used tires on a public road must be a CalRecycle Registered Waste Tire Hauler (or qualify for an exemption) and must comply with the manifesting system requirements. For further information on how to become a registered hauler, obtain a list of registered haulers, or obtain information on the waste tire manifest system, contact the CalRecycle at (866) 896-0600 (toll free) or visit the CalRecycle tire web page at <http://www.CalRecycle.ca.gov/Tires/>.

**Waste Tire Storage Information:** The storage, stockpiling, or accumulation of 500 or more waste tires without a permit, exclusion, or an exemption is a violation of Title 14, California Code of Regulations, section 18420 and Public Resources Code, section 42834. For more information visit the tire facilities web page at <http://www.CalRecycle.ca.gov/Tires/Facilities/>. You can also call the inspector who signed your inspection report.

**Waste Tire Facility Permitting:** You run the risk of having a permit application for this facility denied if you continue to violate the State of California's waste tire storage laws, including staying below the legally allowed waste tire count:

- 499 or less for individual or business,
- 1500 or less for tire dealers and dismantlers,
- 3000 or less for retreaders,
- 5000 or less for agricultural use, and
- up to 4999 (or your permitted amount) for permitted minor waste tire facility.

## CALIFORNIA WASTE TIRE LAWS & REGULATIONS

### Permit Requirements

- Public Resources Code, Division 30, Chapter 16 (PRC), section 42824-Major Waste Tire Facility Permit**  
On and after September 1, 1994, it is unlawful to direct or transport waste tires to a major waste tire facility or to accept waste tires at major waste tire facility unless the operator has obtained a major waste tire facility permit.
- PRC 42834-Minor Waste Tire Facility Permit**  
On and after July 1, 1994, it is unlawful to direct or transport waste tires to a minor waste tire facility or to accept waste tires at a minor waste tire facility unless the operator has obtained a minor waste tire facility permit.
- PRC 42850(a)-Complies with Terms of Permit**
  - (a) Any person who negligently violates any provision of this chapter, or any permit, rule, regulation, standard, or requirement issued or adopted pursuant to this chapter, is liable for a civil penalty of not less than five hundred dollars (\$500) or more than five thousand dollars (\$5,000), for each violation of a separate provision or, for continuing violations, for each day that the violation continues.
- Title 14 California Code of Regulations (14 CCR) section 18420(a) -Applicable for Permit**
  - (a) The operator of a waste tire facility shall acquire a waste tire facility permit in accordance with the requirements of this Chapter and PRC section 42808, unless any of the following conditions exist:
    - (1) The waste tires are stored or disposed at a permitted solid waste disposal facility. The permit of the solid waste facility shall be revised pursuant to Public Resources Code (PRC) section 44014 and shall conform to the requirements of Division 7, Chapter 3, Article 5.5.
    - (2) The facility is using fewer than 5,000 waste tires for agricultural purposes and the waste tires have been rendered incapable of holding accumulations of water.
    - (3) The facility is storing fewer than 500 waste tires.
    - (4) The facility is a tire treading business and not more than 3,000 waste tires are kept on the premises.
    - (6) The facility is an automobile dismantler, as defined in Sections 220 and 221 of the Vehicle Code, who stores waste tires on the premises of the auto dismantler for less than 90 days if not more than 1,500 waste tires are ever accumulated on the dismantler's premises
    - (7) The facility is a tire dealer who stores waste tires on the dealer's premises for less than 90 days if not more than 1,500 waste tires are ever accumulated on the dealer's premises.
  - (b) For purposes of determining the applicability of this Chapter 6, altered waste tires shall be counted as passenger tire equivalents (PTE).
  - (e) A "used tire dealer" is only authorized to lawfully accept used or waste tires without a waste tire facility permit if the used tire dealer is in compliance with Section 17225.820, Article 4.1, Chapter 3 and has fewer than 1500 waste tires in accordance with Section 42808(c).
- 14 CCR 18423-Filing Application for Permit**
  - (a) Every operator of a new or existing major or minor waste tire facility shall submit to the Board a completed original and two (2) copies of the waste tire facility permit application, as specified in Article 4 of this Chapter.
- 14 CCR 18432-Operation Plan**
  - (a) The Operation Plan, as required by 18431(b) shall demonstrate conformance with the technical standards contained in 14 CCR, Division 7, Chapter 3, Article 5.5.
  - (b) The operator shall file amendments to the Operation Plan whenever necessary to keep the information contained in it current.
- 14 CCR 18433-Emergency Response Plan**
  - (a) The operator of the waste tire facility shall maintain a copy of the Emergency Response Plan at the facility. At the time of permit issuance the approved Emergency Response Plan shall be forwarded to the local fire authority by the permittee. The plan shall be revised as necessary to reflect any changes in the operations of the waste tire facility or requirements of the local fire authority. The local fire authority and the Board shall be notified of any changes to the plan within 30 days of the revision.
  - (b) The operator of the facility shall immediately notify the Board in the event of a fire or other emergency if that emergency has potential significant off-site effects. Within 30 days of any such emergency, the operator shall submit to the Board a written report describing the cause(s) of the emergency, the results of actions taken, and an analysis of the success or failure of these actions.

**CALIFORNIA WASTE TIRE LAWS & REGULATIONS:**  
*Tire Storage & Disposal Standards*

- Title 14 California Code of Regulations (14 CCR) section 18447-Record Keeping**

Copies of all records required to be kept under this Chapter shall be retained by the operator for three (3) years at the place of business and shall be made available at the site during normal business hours for inspection and photocopy by any representative of the Board or any individual authorized by the Board.
  
- 14 CCR 17351-Fire Prevention Measures**
  - (a) Communication equipment shall be maintained at all facilities, if they are staffed by an attendant, to ensure that the site operator can contact local fire protection authorities in the event of fire.
  - (b) Adequate equipment to aid in the control of fires must be provided and maintained at the facility at all times. At a minimum the following items shall be maintained on site and in working order at all times:
    - (1) One (1) dry chemical fire extinguisher;
    - (2) One (1) two and one-half gallon water extinguisher;
    - (3) One (1) pike pole or comparable pole at least 10 feet in length to separate burning from non-burning tires; and
    - (4) One (1) round point and one (1) square point shovel.
    - (5) One (1) dry chemical fire extinguisher with a minimum rating of 4A:40BC shall be carried on each piece of fuel-powered equipment used to handle waste tires;
  - (c) An adequate water supply shall be available for use by the local fire authority. The water supply shall be capable of delivering at least 1,000 gallons per minute for a duration of at least three hours and at least 2,000 gallons per minute for a duration of at least three hours if the sum of altered plus whole waste tires exceeds 10,000.
  - (d) All of the requirements of subsections (b) and (c) shall apply unless the local fire authority having jurisdiction over a particular facility determines that a different requirement is necessary or adequate to meet the intent of these regulations for fire control and the protection of life and property. This may include the availability of earth moving equipment or other approved means to control the tire fire. Any change in, or any new, local fire authority requirements that affect the requirements in this Article shall be reported to the Board by the operator within 30 days after their effective date. Any requirements approved by the local fire authority shall be subject to Board concurrence at the time of issuance or renewal of the permit.
  
- 14 CCR 17352-Site Security**
  - (a) Signs - for facilities open to the public a sign shall be posted at the facility entrance stating the name of the operator, operating hours, and site rules.
  - (b) Attendant - An attendant shall be present when the facility is open for business if the facility receives tires from persons other than the operator of the facility.
  - (c) Access - An access road to the facility must be maintained passable for emergency equipment and vector control vehicles at all times. Unauthorized access must be strictly controlled.
  
- 14 CCR 17353(a)-Vector Control**
  - (a) All waste tires shall be stored in a manner which prevents the breeding and harborage of mosquitoes, rodents, and other vectors by any of the following means:
    - (1) Cover with impermeable barriers other than soil to prevent entry or accumulation of precipitation; or
    - (2) Use of treatments or methods to prevent or eliminate vector breeding as necessary, provided the control program is approved as appropriate and effective by the local vector control authority, if such authority exists. If no local vector control authority exists, the local Environmental Health Department or other local agency with authority over vector control shall approve the vector control plan. Any control program approved by the local vector control authority shall be subject to Board concurrence at the time of issuance or renewal of the waste tire facility permit.
  
- 14 CCR 17354-Storage of Waste Tires Outdoors**
  - (a) Except as provided in subsection (c) waste tires shall be restricted to individual piles, which include stacks and racks of tires that do not exceed 5,000 square feet of contiguous area. Any pile shall not exceed 50,000 cubic feet in volume nor 10 feet in height. Piles shall not exceed 6 feet in height when within 20 feet of any property line or perimeter fencing. Waste tires shall not be located within 10 feet of any property line or perimeter fencing. The minimum distance between waste tire piles and between waste tire piles and structures that are located either on-site or off-site shall be as specified in Table I.

(b) Except as provided in subsection (c) waste tires shall be separated from vegetation and other potentially flammable materials by no less than 40 feet. Accessible fire lanes with a minimum width as specified in Table I shall be provided between tire storage units. Fire lanes shall be kept free of flammable or combustible material and vegetation. Access to fire lane(s) for emergency vehicles must be unobstructed at all times. Open flames, blow torches, or highly flammable materials, including but not limited to, tire inner tubes, are prohibited within 40 feet of a waste tire pile.

Table I  
Minimum Separation Distances (Ft.)

Length of Exposed Face (Ft.)	Tire Storage Pile Height (Ft.)		
	6'	8'	10'
25'	50	56	62
50'	66	75	84
100'	84	100	116
150'	99	117	135
200'	111	130	149
250'	118	140	162

(c) All of the requirements in subsections (a) and (b) shall apply to the storage of waste tires unless, for any particular requirement, the local fire authority having jurisdiction over a particular facility determines that a different requirement is necessary or adequate to meet the intent of these regulations for the prevention of fire and the protection of life and property. Any change in, or any new, local fire authority requirements that affect the requirements in this Article shall be reported to the Board by the operator within 30 days after their effective date. Any requirements approved by the local fire authority shall be subject to Board concurrence at the time of issuance or renewal of the permit.

(d) Surface water drainage shall be directed around and away from the waste tire storage area.

(e) Waste tires at existing waste tire facilities shall not be stored on surfaces with grades that will interfere with fire fighting equipment or personnel unless mitigation measures have been approved in writing by the local fire authority, or a fire safety engineer registered by the State of California. Measures established by a fire safety engineer shall be subject to approval by the local fire authority.

(f) New waste tire facilities shall not:

(1) Be sited in any area where they may be subjected to immersion in water during a 100-year storm unless the operator demonstrates to the Board that the facility will be designed and operated so as to prevent waste tires from migrating off-site; or

(2) Be located on sites with grades or other physical features that will interfere with fire fighting equipment or personnel.

(g) Tires must be removed from rims immediately upon arrival at the facility.

(h) The site shall be designed and constructed to provide protection to bodies of water from runoff of pyrolytic oil resulting from a potential tire fire.

**14 CCR 17356-Indoor Storage**

Waste tires stored indoors must be stored under conditions that meet or exceed those in "The Standard for Storage of Rubber Tires", National Fire Protection Association, NFPA 231D-1989 edition, published by the National Fire Protection Association, which is incorporated by reference. This requirement shall apply unless the local fire authority having jurisdiction over a particular facility determines that a different requirement is necessary or adequate to meet the intent of these regulations for fire control and the protection of life and property. Any change in, or any new, local fire authority requirements that affect the requirements in this Article shall be reported to the Board by the operator within 30 days after their effective date.

## **APPENDIX B**

# **APPLICABLE CALIFORNIA STATUTE AND REGULATIONS**

## APPENDIX B

### PUBLIC RESOURCES CODE

#### **§ Section 42824. Transporting Waste Tires to an Unpermitted Major Waste Tire Facility**

On and after September 1, 1994, it is unlawful to direct or transport waste tires to a major waste tire facility or to accept waste tires at a major waste tire facility unless the operator has obtained a major waste tire facility permit.

#### **§ Section 42834. Transporting Waste Tires to an Unpermitted Minor Waste Tire Facility**

On and after July 1, 1994, it is unlawful to direct or transport waste tires to a minor waste tire facility or to accept waste tires at a minor waste tire facility unless the operator has obtained a major waste tire facility permit.

#### **§ Section 42850. Complies with Terms of Permit**

(a) Any person who negligently violates any provision of this chapter, or any permit, rule, regulation, standard, or requirement issued or adopted pursuant to this chapter, is liable for civil penalty of not less than five hundred dollars (\$500) or more than five thousand dollars (\$5,000), for each violation of a separate provision or, for continuing violations, for each day that the violation continues.

#### **§ Section 42953. Contracts With Registered Waste Tire Haulers**

Any person who gives, contracts, or arranges with another person to transport waste or used tires shall utilize only a person holding a valid waste and used tire hauler registration from the board, unless the hauler is exempt as specific in Section 42954.

### **TITLE 14, DIVISION 7, CHAPTER 3, Minimum Standards for Solid Waste Handling and Disposal**

#### **Article 5.5, Section 17351. Fire Prevention Measures.**

(a) Communication equipment shall be maintained at all facilities, if they are staffed by an attendant, to ensure that the site operator can contact local fire protection authorities in the event of fire.

(b) Adequate equipment to aid in the control of fires must be provided and maintained at the facility at all times. At a minimum the following items shall be maintained on site and in working order at all times:

- (1) One (1) dry chemical fire extinguisher;
- (2) One (1) two and one-half gallon water extinguisher;
- (3) One (1) pike pole or comparable pole at least 10 feet in length to separate burning from nonburning tires; and
- (4) One (1) round point and one (1) square point shovel.
- (5) One (1) dry chemical fire extinguisher with a minimum rating of 4A:40BC shall be carried on each piece of fuel-powered equipment used to handle waste tires;

(c) An adequate water supply shall be available for use by the local fire authority. The water supply shall be capable of delivering at least 1000 gallons per minute for a duration of at least three hours and at least 2000 gallons per minute for a duration of at least three hours if the sum of altered plus whole waste tires exceeds 10,000.

(d) All of the requirements of subsections (b) and (c) shall apply unless the local fire authority having jurisdiction over a particular facility determines that a different requirement is necessary or

## APPENDIX B

adequate to meet the intent of these regulations for fire control and the protection of life and property. This may include the availability of earth moving equipment or other approved means to control the tire fire. Any change in, or any new, local fire authority requirements that affect the requirements in this Article shall be reported to the Board by the operator within 30 days after their effective date. Any requirements approved by the local fire authority shall be subject to Board concurrence at the time of issuance or renewal of the permit.

### **Article 5.5, Section 17352. Facility Access and Security.**

(a) Signs--for facilities open to the public a sign shall be posted at the facility entrance stating the name of the operator, operating hours, and site rules.

(b) Attendant--An attendant shall be present when the facility is open for business if the facility receives tires from persons other than the operator of the facility.

(c) Access--An access road to the facility must be maintained passable for emergency equipment and vector control vehicles at all times. Unauthorized access must be strictly controlled.

### **Article 5.5, Section 17353. Vector Control Measures.**

(a) All waste tires shall be stored in a manner which prevents the breeding and harborage of mosquitoes, rodents, and other vectors by any of the following means:

(1) Cover with impermeable barriers other than soil to prevent entry or accumulation of precipitation; or

(2) Use of treatments or methods to prevent or eliminate vector breeding as necessary, provided the control program is approved as appropriate and effective by the local vector control authority, if such authority exists. If no local vector control authority exists, the local Environmental Health Department or other local agency with authority over vector control shall approve the vector control plan. Any control program approved by the local vector control authority shall be subject to Board concurrence at the time of issuance or renewal of the waste tire facility permit.

### **Article 5.5, Section 17354. Storage of Waste Tires Outdoors.**

(a) Except as provided in subsection (c) waste tires shall be restricted to individual piles, which include stacks and racks of tires that do not exceed 5,000 square feet of contiguous area. Any pile shall not exceed 50,000 cubic feet in volume nor 10 feet in height. Piles shall not exceed 6 feet in height when within 20 feet of any property line or perimeter fencing. Waste tires shall not be located within 10 feet of any property line or perimeter fencing. The minimum distance between waste tire piles and between waste tire piles and structures that are located either on-site or off-site shall be as specified in Table I.

(b) Except as provided in subsection (c) waste tires shall be separated from vegetation and other potentially flammable materials by no less than 40 feet. Accessible fire lanes with a minimum width as specified in Table I shall be provided between tire storage units. Fire lanes shall be kept free of flammable or combustible material and vegetation. Access to fire lane(s) for emergency vehicles must be unobstructed at all times. Open flames, blow torches, or highly flammable materials, including but not limited to, tire inner tubes, are prohibited within 40 feet of a waste tire pile.

## APPENDIX B

<b>Table I</b>			
<b>Minimum Separation Distances (Ft.)</b>			
<b>Length of Exposed Face (Ft.)</b>	<b>Tire Storage Pile Height (Ft.)</b>		
	<b>6</b>	<b>8</b>	<b>10</b>

50	66	75	84
100	84	100	116
150	99	117	135
200	111	130	149
250	118	140	162

(c) All of the requirements in subsections (a) and (b) shall apply to the storage of waste tires unless, for any particular requirement, the local fire authority having jurisdiction over a particular facility determines that a different requirement is necessary or adequate to meet the intent of these regulations for the prevention of fire and the protection of life and property. Any change in, or any new, local fire authority requirements that affect the requirements in this Article shall be reported to the Board by the operator within 30 days after their effective date. Any requirements approved by the local fire authority shall be subject to Board concurrence at the time of issuance or renewal of the permit.

(d) Surface water drainage shall be directed around and away from the waste tire storage area.

(e) Waste tires at existing waste tire facilities shall not be stored on surfaces with grades that will interfere with firefighting equipment or personnel unless mitigation measures have been approved in writing by the local fire authority, or a fire safety engineer registered by the State of California. Measures established by a fire safety engineer shall be subject to approval by the local fire authority.

(f) New waste tire facilities shall not:

(1) Be sited in any area where they may be subjected to immersion in water during a 100-year storm unless the operator demonstrates to the Board that the facility will be designed and operated so as to prevent waste tires from migrating off site; or

(2) Be located on sites with grades or other physical features that will interfere with firefighting equipment or personnel.

(g) Tires must be removed from rims immediately upon arrival at the facility.

(h) The site shall be designed and constructed to provide protection to bodies of water from runoff of pyrolytic oil resulting from a potential tire fire.

## APPENDIX B

### **TITLE 14, DIVISION 7, CHAPTER 6, Permitting of Waste Tire Facilities and Waste Tire Hauler Registration and Tire Manifests**

#### **Article 1, Section 18420. Applicability.**

(a) The operator of a waste tire facility shall acquire a waste tire facility permit in accordance with the requirements of this Chapter and PRC section 42808, unless any of the following conditions exist:

- (1) The waste tires are stored or disposed at a permitted solid waste disposal facility. The permit of the solid waste facility shall be revised pursuant to Public Resources Code (PRC) section 44014 and shall conform to the requirements of Division 7, Chapter 3, Article 5.5.
- (2) The facility is using fewer than 5,000 waste tires for agricultural purposes and the waste tires have been rendered incapable of holding accumulations of water.
- (3) The facility is storing fewer than 500 waste tires.
- (4) The facility is a tire treading business and not more than 3,000 waste tires are kept on the premises.
- (5) (Reserved)
- (6) The facility is an automobile dismantler, as defined in Sections 220 and 221 of the Vehicle Code, who stores waste tires on the premises of the auto dismantler for less than 90 days if not more than 1,500 waste tires are ever accumulated on the dismantler's premises.
- (7) The facility is a tire dealer who stores waste tires on the dealer's premises for less than 90 days if not more than 1,500 waste tires are ever accumulated on the dealer's premises.

(b) For purposes of determining the applicability of this chapter 6, altered waste tires shall be counted as passenger tire equivalents (PTE).

(c) (Reserved)

(d) For the purposes of Chapter 6, Articles 2 through 7 and Articles 9, 10 and 11 apply to operators and/or businesses described under Chapter 6, Article 1.

(e) A "used tire dealer" is only authorized to lawfully accept used or waste tires without a waste tire facility permit if the used tire dealer is in compliance with Section 17225.820, Article 4.1, Chapter 3 and has fewer than 1500 waste tires in accordance with Section 42808(c).

#### **Article 2, Section 18423. Filling of Application**

(a) Every operator of a new or existing major or minor waste tire facility shall submit to the Board a completed original and two (2) copies of the waste tire facility permit application, as specified in Article 4 of this Chapter.

(b) Upon receipt of the application, the Board shall mark the application package with the date of receipt. Within 30 days of receipt, the Board shall examine the application package to determine whether it meets the requirements contained in this chapter and either accept the application as complete or reject the application. If the Board finds the application meets the requirements, the application shall be accepted as complete. If the Board determines that the application does not conform to the applicable requirements, it shall notify the applicant in writing enumerating the grounds for rejection.

## APPENDIX B

### **Article 4, Section 18432. Operation Plan**

(a) The Operation Plan, as required by 18431(b) shall demonstrate conformance with the technical standards contained in 14 CCR, Division 7, Chapter 3, Article 5.5.

(b) The operator shall file amendments to the Operation Plan whenever necessary to keep the information contained in it current.

### **Article 4, Section 18433. Emergency Response Plan**

(a) The operator of the waste tire facility shall maintain a copy of the Emergency Response Plan at the facility. At the time of permit issuance the approved Emergency Response Plan shall be forwarded to the local fire authority by the permittee. The plan shall be revised as necessary to reflect any changes in the operations of the waste tire facility or requirements of the local fire authority. The local fire authority and the Board shall be notified of any changes to the plan within 30 days of the revision.

(b) The operator of the facility shall immediately notify the Board in the event of a fire or other emergency if that emergency has potential significant off-site effects. Within 30 days of any such emergency, the operator shall submit to the Board a written report describing the cause(s) of the emergency, the results of actions taken, and an analysis of the success or failure of these actions.

### **Article 7, Section 18447. Retention of Records**

Copies of all records required to be kept under this Chapter shall be retained by the operator for three (3) years at the place of business and shall be made available at the site during normal business hours for inspection and photocopy by any representative of the Board or any individual authorized by the Board.

### **Article 8.5, Section 18459.2.1. Submittal of the Comprehensive Trip Log, Manifest Form, Tire Trip Log, Retreader Trip Log, and Electronic Reporting to the Board**

As provided in this section, the Comprehensive Trip Log, or Manifest Form and Tire Trip Log, or Retreader Trip Log shall be submitted to the CIWMB by the waste tire generator, waste tire hauler or Retreader as specified in (a), (b), (c), or (d).

(a)(1) If the waste tire hauler chooses to use the Manifest form, the waste tire generator shall submit the completed original Manifest Form to the Board within ninety (90) days of the load shipment. The Manifest Form and Tire Trip Log shall be in the waste tire hauler's possession while transporting used or waste tires. The Manifest Form and the Tire Trip Log shall be shown upon demand to any representative of the Board, any officer of the California Highway Patrol, any peace officer, as defined in Section 830.1 or 830.2 of the California Penal Code, or any local public officer designated by the Board.

(2) If the waste tire hauler chooses to use the Tire Trip Log, the waste tire hauler shall submit the completed original Tire Trip Log to the Board within ninety (90) days of the load shipment.

(3) The Manifest Form and Tire Trip Log shall not be used after December 31, 2005.

(b) On or before January 1, 2006, the waste tire hauler shall submit a copy of the completed Comprehensive Trip Log to the Board within ninety (90) days of the load shipment. The Comprehensive Trip Log shall be in the waste tire hauler's possession while transporting used or waste tires. The Comprehensive Trip Log shall be shown upon demand to any representative of the Board, any officer of the California Highway Patrol, any peace officer, as defined in Section 830.1 or 830.2 of the California Penal Code, or any local public officer designated by the Board.

## APPENDIX B

(c) If the waste or used tire is a tire casing being shipped for inspection, retreading, or recapping and is being transported by a Retreader, the waste tire generator may substitute an invoice for the required manifest form provided by the Retreader. The invoice shall contain the date of the transaction, the name of the customer and address, the Tire Program Identification Number of the generator or end use facility, the name of the retreader and address, the quantity of tire casings shipped. A copy of the invoice and Retreader Trip Log shall be in the Retreader's possession while transporting the tire casings. The copy of the invoice and Retreader Trip Log shall be shown upon demand to any representative of the Board, any officer of the California Highway Patrol, any peace officer, as defined in Section 830.1 or 830.2 of the California Penal Code, or any local public officer designated by the Board.

(1) The Retreader shall submit the completed Retreader Trip Log to the Board within ninety (90) days of the load shipment.

(d) If approved by the Board pursuant to Public Resources Code Section 42961.5, any person that is subject to the requirements set forth in above (a), (b), or (c) may substitute their own functionally equivalent form, once approved by the Board, in lieu of the Board required form and submit an electronic report within ninety (90) days of the load shipment to the Board, in lieu of submitting the required form. The electronic report shall include all information required to be on the Comprehensive Trip Log, Retreader Trip Log, or Manifest and Tire Trip Log forms.
