

These materials were developed under the auspices of CalRecycle for specific technical training presentations and are posted as reference documents for the local government and CalRecycle staff who attended this technical training series. They are not intended to stand alone as informational or training materials.

If you require assistance in obtaining access to the presentations, call the Public Affairs Office at (916) 341-6300 or Dennis Corcoran at (916) 341-6395.

Transfer Station Litter

Objectives

- Learn how to observe, quantify, evaluate and document litter conditions at Transfer Stations with regard to Title 14 Regulations.
- Develop a basic understanding of Best Management Practices to address compliance issues.

State Minimum Standards requires:

- Control Litter
- Collect Litter
- Dispose Properly

Section 17408.1

Litter at operations and facilities shall be controlled, and routinely collected to prevent safety hazards, nuisances or similar problems and off-site migration to the greatest extent possible given existing weather conditions.

What is This?

Best Management Practices

- How to control litter

04.24.2007 14:00

04.24.2007 14:04

Constant Monitoring = Results

Observations

- Documentation
 - Are control measure evident?
 - Are they making an effort?
 - How effective are the measures?
 - Mitigating circumstances?
 - What else are you finding?
